

Card network interface exist

```
#!/bin/bash

interface="ens160"

if [ -d "/sys/class/net/${interface[@]}" ]
then
    echo "Network card : '${interface[@]}' is exist "
else
    echo "Network card : '${interface[@]}' is not exist "
fi
```

```
[root@dev adhamscripts]# vim card_net_exist_chk.sh
[root@dev adhamscripts]# chmod +x card_net_exist_chk.sh
[root@dev adhamscripts]# ./card_net_exist_chk.sh
Network card : 'ens160' is exist
[root@dev adhamscripts]#
```
